MY PROFILE

I decided to change my field of interest into programming and develop myself as a programmer. During my education and work, I have used a range of programming languages, operating systems and development tools. I am aware I still have a lot to learn, so I constantly expand my knowledge and raise up my skills.

LANGUAGES

English	B2
Polish	Native

SKILLS

Python	REST API
Git	Bootstrap
Django	Fast learning
PostgreSQL	
Pytest	

EDUCATIONS

2022 - Present

DEVS-MENTORING, PERSONAL MENTORING

Python Developer

2021 - 2022

AGH UNIVERSITY OF SCIENCE AND TECHNOLOGY

Master's in Electrical Engineering

2017 - 2021

AGH UNIVERSITY OF SCIENCE AND TECHNOLOGY

The Bachelor of Science degree in Electrical Engineering

WORK EXPERIENCE

SOFTWARE SYSTEMS TEST ENGINEER
Aptiv (2021 - Present)

- Executing tests, creating test reports and reporting failures according to client requirements
- Creating automated tests using pytest

SYSTEMS ENGINEER
Aptiv (2020-2021)

- Working with the technical requirements of the project
- Code refabrication in c++

PROJECTS

CRYPTOCURRENCY EXCHANGE WEB APPLICATION

InWork - | Python | Django | REST API | | Boostrap | Pytest | Git |

CESAR CYPHER ENCRYPTER SCRIPT

| Python | Pytest | Git | | Program pattern: Facade |

ACQUISITION OF MEASUREMENT DATA IN THE GOOGLE CLOUD THESIS PROJECT

| C | MQTT | Google Cloud API |

The purpose of the work was to prepare a program for a low-cost 16-bit microprocessor that collects measurement data from meters (voltage, current, energy) equipped with Modbus RTU and sends the data to the Google Cloud.
